

21c MUSEUM HOTEL

A historic downtown Kansas City hotel and restaurant has been redeveloped into the 21c Museum Hotel Kansas City – a modern boutique hotel with 120 guest rooms, a contemporary art museum, 6,200 sf of exhibition/event/meeting space, a historic bar and lounge, a fitness center, and a chef-driven restaurant.

AVANT ACOUSTICS provided the following services:

- Audio-visual systems design
- Construction administration

Project Highlights:

AVANT ACOUSTICS designed integrated audio-visual systems to provide the functionality and flexibility required by the multi-purpose facility. The system design was also closely coordinated with the project architects to maintain the aesthetic vision of the historic facility with modern finishes. The systems designed include the following:

- Video projection and display systems
- Sound reinforcement systems
- Audio conferencing systems
- Facility background music distribution system
- Integrated AV control system
